

2018 PAC Training Antek MultiTek N/S - Rotterdam

Dedicated Training to Improve Performance, Knowledge and Skills

PAC Training Program Rotterdam

The Elemental product line, Antek MultiTek, offers a range of high-tech analyzers for petrochemical sample streams. Our product is user friendly and easy-to-use, although the technique is complex.

To improve your skills, obtain the best results, and completely understand your analyzer, PAC offers a complete program of factory, customized and on-site trainings. These courses are designed to assist operators and lab engineers in their day-to-day operation of PAC systems by providing the optimal mix between theory, practice, and hands-on training. Training improves laboratory productivity and the accuracy of instrument results.

Course Description

This hands-on laboratory and lecture course covers a variety of topics to increase your understanding of PAC's MultiTek Elemental Analyser. You will receive presentations for theory and component identification, mixed with practical hands-on training using the MultiTek instrument in our laboratory.

The training course impart a detailed knowledge of the Multitek application software. There will be clinics for maintenance on the various detectors and pyro-tube installation. Also covered will be the software for user interface, calibration, maintenance, and troubleshooting for common problems. These courses are conducted by certified skilled PAC technicians who have MultiTek Elemental Analyser applications experience, much of which has been gained by visiting our customer base.

Who Should Attend?

This class is intended for customers who have recently purchased a new MultiTek, new users, or current operators who need a refresher to fill in knowledge gaps.

Course Content:
