

PAC Alcor JFTOT IV Analyzer Training Course

Office: +1.800.444.1803

Fax: +1.281.940.1803

pacsales@pacpl.com

Course Description

This hands-on and lecture course is intended to increase your understanding of PAC's JFTOT IV analyzer and the ASTM D 3241 Method. You will receive presentations for theory and major component identification, mixed with practical hands-on training using a JFTOT IV in our laboratory. Also covered will be the software for user interface, calibration, maintenance, and troubleshooting for common problems. Customized applications will be reasonably accommodated upon request. This course is conducted by certified, skilled PAC technicians who have experience with JFTOT IV in real world applications. You will also have access to the PAC support group for specific discussions and forums for your unique situations.

Course Part Number and Cost:

Part Number: TR-JFTOTIV

Cost: \$ 2,300 USD for each attendee ([INCLUDED: One Galaxy Tab A 10.1 with S Pen 16GB \(Wi-Fi\)](#))

Who Should Attend?

This class is intended for customers who have recently purchased a new JFTOT IV, new users, or current operators who need a refresher to fill in knowledge gaps.

Length:

This class is 2 days

Course Materials:

PAC will provide the presentations, as well as the instruments.

Course Agenda:

Day 1

- ASTM D 3241
 - Test requirements – How to ensure you are in compliance with the method
 - Proper sample handling and test set-up
 - Interpretation of the heater tube; Common contributors to faulty testing
- JFTOT IV Overview
 - Brief history of the JFTOT; Theory of operation; User interface & Test set-up

Day 2

- JFTOT IV Overview
 - Calibration
 - Periodicity & Tools needed
 - Maintenance
 - Periodicity & Materials and tools needed
 - Basic troubleshooting and repairs
 - Common user errors; Troubleshooting techniques & When you should call for technical service
