

Optifuel

Precision and portability in a top of the line FTIR Fuel Analyzer

- Superior performance and ruggedness
- Expert service and support worldwide
- Unmatched warranty on critical components

Optifuel

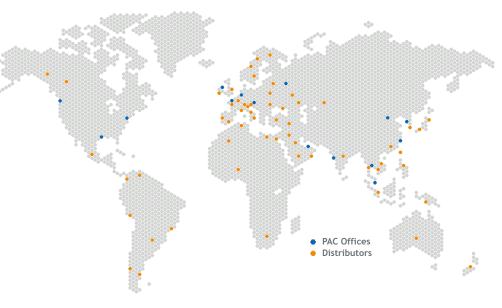

ACCURATE, EASY AND RELIABLE FUEL ANALYSIS

For more than 20 years, PAC has been at the forefront of infrared (IR) fuel analysis with its PetroSpec products. Now we are combining the best of our GS PPA, TD PPA and QuickSpec capabilities into one analyzer and adding the latest FTIR technology into the most robust fuel analyzer in the market.

The user-friendly system allows the operator to measure many properties at once with a simple touch of a button, using free factory calibration models. Users can customize the models with local samples in a few seconds. These custom models can easily be cloned to all your OptiFuels, even remotely, if necessary.

GLOBAL SUPPORT

- Extensive support network through our offices and over 140 distributors worldwide.
- ISO-9001:2015-satisfactory manufacturing facility and service repair centers
- Skilled certified service technicians

KEY FEATURES

EXTENDED WARRANTY

- 2-year standard system warranty
- 10-year optics warranty on the full range, laser-referenced Michelson interferometer
- 5-year warranty on the IR light source

- Compliance with ASTM, EN, ISO methods
- · Calibration lasts for years
- High resolution wide range FTIR ATR single flow cell
- Measure multiple parameters at once

RELIABLE DESIGN

- Modern temperature-controlled laser referenced Michelson interferometer
- Humidity and vibration resistant ZnSe mirrors, beam splitters and non-moving sample cell

- One instrument measures all types of samples without the need for extra hardware
- On-site, fast and minimal maintenance
- Low cost of consumables

USER-FRIENDLY INTERFACE

- Intuitive interface requires minimal user training
- Large touch-screen allows easy navigation
- On-system, one-button-push model update with regional samples
- · One-step, rapid calibration transfer and cloning
- Easy-to-use LIMS connectivity

INCLUDED PARAMETERS

Every OptiFuel comes with more than 50 different calibration models built using hundreds of real-life samples of gasoline, diesel and jet fuel, from all over the globe, following ASTM E1655. These calibration ranges are based on current factory models, but they all can easily be expanded in the field. Calibrations can easily be cloned and transferred to additional units.

NOTES:

- 1. Range and quality of prediction is related to database used.
- 2. The lowest concentration value is related to the Limit of Detection (LOD).

DENSITY MODULE

An ASTM compliant u-tube density module, capable of measuring from 0.5 g/cm³ to 2.0 g/cm³, is integrated in each OptiFuel to provide direct density reading. Per ASTM D1250-04 algorithm, densities of hydrocarbon samples can be reported at 15° from 0.6 to 1.2 g/cm³. This eliminates the need for an external density meter.

ROAD-TESTED FOR MOBILE APPLICATIONS

OptiFuel comes in a rugged, yet elegant, design with a friendly user interface, which makes it ideal for refineries, pipelines, terminals and mobile labs.

We used only the best materials to ensure it delivers unmatched performance in any application, and tested through intense shock, vibration and drop, per ASTM and MilSpec.

OptiFuel's handle and small foot print provides the perfect mobility for any remote field requirements.

MOBILE ACCESSORY PACKAGE

Anti-vibration platform

High-performance lithium ion battery with power supply

ABOUT PAC

PAC develops advanced instrumentation for lab and process applications based on strong **Analytical Expertise** that ensures **Optimal Performance** for our clients. Our analyzers help our clients meet complex industry challenges by providing a low cost of ownership, safe operation, high performance with fast, accurate, and actionable results, high uptime through reliable instrumentation, and compliance with standard methods.

Our solutions are from industry-leading brands: AC Analytical Controls, Advanced Sensors, Alcor, Antek, Herzog, ISL, Cambridge Viscosity, PSPI, and PetroSpec. We are committed to delivering superior and local customer service worldwide with 16 office locations and a network of over 50 distributors. PAC operates as a unit of Roper Technologies, Inc., a diversified technology company and a constituent of S&P 500, Fortune 1000, and Russell 1000 indices.
