

2025 PAC Antek ElemeNtS Training - Houston

Dedicated Training to Improve Performance, Knowledge and Skills

PAC Training Program Houston

The Antek product line offers a range of high-tech analyzers for petrochemical sample streams. Our products are user-friendly and easy-to-use, although the technique is complex. To improve your skills, obtain the best results, and completely understand your analyzer, PAC offers a complete program of factory, customized and on-site training.

These courses are designed to assist operators and lab engineers in their day-to-day operation of PAC systems by providing the optimal mix between theory, practice, and hands-on training. Training improves laboratory productivity and the accuracy of instrument results.

Antek ElemeNtS Course Description

The 3-day training course is designed for new and experienced users of PAC products. Class sizes are small keeping the course highly interactive and flexible.
